## On the Uses and Abuses of Political Apologies (Rhetoric, Politics and Society)

Recent decades have witnessed a sharp rise in the number of state apologies for historical and more recent injustices, ranging from enslavement to displacement and from violations of treaties to war crimes, all providing the backdrop to displays of official regret. Featuring a host of leading authors in the field, this book seeks to contribute to the growing literature on official apologies by effectively combining philosophical reflection and empirical analysis. It achieves two interrelated goals: it enriches the theoretical debates on the nature and functions of apologies while bringing forth new insights from hitherto unexamined normative horizons. It further addresses often overlooked aspects of political apologies, such as their non-verbal dimension as well as religious overtones, while testing theoretical reflections through encounters with real practices of state apologies. Finally, the book explores the obstacles to, and the limitations of, political apologies. The result is an excellent interdisciplinary volume that affords the reader a better understanding of conditions for a legitimate and successful state apology.

As a scholar exactly feel bored to reading. If their teacher inquired them to go to the library as well as to make summary for some reserve, they are complained. Just little students that has reading's internal or real their hobby. They just do what the instructor want, like asked to go to the library. They go to at this time there but nothing reading very seriously. Any students feel that examining is not important, boring and can't see colorful photographs on there. Yeah, it is being complicated. Book is very important for you personally.
