This high-yield review is designed as a primary study tool to help candidates prepare for the epilepsy certification exam. Using structured question formats typically encountered on boards, the book covers the base knowledge tested and allows users to assess their proficiency in a wide range of topics necessary to achieve subspecialty certification in the field of epilepsy.

*Epilepsy Board Review* contains over 360 questions with answers, detailed explanations, and references. The book is divided into four sections covering phenomenology of seizures and epileptic disorders, basic EEG, diagnostic evaluation of seizures and epilepsy, and treatment. Liberal use of image-based questions presenting EEG and neuroimaging findings build interpretive skills and foster improved understanding of applications and interventions. Questions are randomized and include both case-related questions in series and stand-alone items to familiarize candidates with the question types and formats they will encounter on the exam.

## Key Features:

- The first and only dedicated self-assessment and review tool for the Epilepsy certifying exam
- Contains over 360 board-type questions with answers, detailed explanations, and references
- Facilitates recall of must-know information and helps identify knowledge gaps for further study
- Includes case studies and illustrated questions with 87 state-of-the-art images to ensure familiarity with findings that form a significant part of any certifying exam
