## Hydrogen Bonded Supramolecular Structures (Lecture Notes in Chemistry)

This book covers the advances in the studies of hydrogen-bonding-driven supramolecular systems made over the past decade. It is divided into four parts, with the first introducing the basics of hydrogen bonding and important hydrogen bonding patterns in solution as well as in the solid state. The second part covers molecular recognition and supramolecular structures driven by hydrogen bonding. The third part introduces the formation of hollow and giant macrocycles directed by hydrogen bonding, while the last part summarizes hydrogen bonded supramolecular polymers.

This book is designed to bring together in a single volume the many important aspects of hydrogen bonding supramolecular chemistry and will be a valuable resource for graduates and researchers working in supramolecular and related sciences.

**Zhan-Ting Li, PhD**, is a Professor of Organic Chemistry at the Department of Chemistry, Fudan University, China.

**Li-Zhu Wu, PhD**, is a Professor of Organic Chemistry at the Technical Institute of Physics and Chemistry, Chinese Academy of Sciences, China.

### **From reader reviews:**

#### **Cameron Keller:**

Here thing why that Hydrogen Bonded Supramolecular Structures (Lecture Notes in Chemistry) are different and reputable to be yours. First of all looking at a book is good nevertheless it depends in the content of the usb ports which is the content is as delightful as food or not. Hydrogen Bonded Supramolecular Structures (Lecture Notes in Chemistry) giving you information deeper since different ways, you can find any e-book out there but there is no reserve that similar with Hydrogen Bonded Supramolecular Structures (Lecture Notes in Chemistry). It gives you thrill looking at journey, its open up your eyes about the thing in which happened in the world which is might be can be happened around you. You can bring everywhere like in park your car, café, or even in your way home by train. If you are having difficulties in bringing the imprinted book maybe the form of Hydrogen Bonded Supramolecular Structures (Lecture Notes in Chemistry) in e-book can be your alternate.

#### **Susanne Pineda:**

The particular book Hydrogen Bonded Supramolecular Structures (Lecture Notes in Chemistry) has a lot of knowledge on it. So when you make sure to read this book you can get a lot of gain. The book was authored by the very famous author. This articles author makes some research just before write this book. This kind of book very easy to read you can find the point easily after reading this article book.

#### **Keri Lo:**

Your reading sixth sense will not betray an individual, why because this Hydrogen Bonded Supramolecular Structures (Lecture Notes in Chemistry) book written by well-known writer who really knows well how to make book that may be understand by anyone who have read the book. Written throughout good manner for you, dripping every ideas and creating skill only for eliminate your own hunger then you still uncertainty Hydrogen Bonded Supramolecular Structures (Lecture Notes in Chemistry) as good book not simply by the cover but also by the content. This is one reserve that can break don't assess book by its protect, so do you still needing a different sixth sense to pick this!? Oh come on your reading sixth sense already told you so why you have to listening to one more sixth sense.

#### **Michael Slay:**

Is it anyone who having spare time then spend it whole day simply by watching television programs or just laying on the bed? Do you need something new? This Hydrogen Bonded Supramolecular Structures (Lecture Notes in Chemistry) can be the reply, oh how comes? The new book you know. You are and so out of date, spending your extra time by reading in this new era is common not a nerd activity. So what these ebooks have than the others?
