Algebra of Conscience (Theory and Decision Library A:) V.A. Lefebvre

Conscience is an essential human attribute. Nevertheless, in the construction of formal models of the subject it is customarily left outside the framework of theoretical analysis. *The Algebra of Conscience*, whose first edition appeared in 1982, was the first specialized work modeling the phenomenon of conscience. The method used in this book made it possible to connect moral experience with decision-making procedures on the level of mathematical models. The application of such models allows us to propose the hypothesis of two fundamentally different ethical systems determining the normative patterns of human behavior in situations of conflict. Under the first ethical system the subject's self-esteem is raised if the subject seeks to resolve the conflict; in the second it is raised by seeking to dramatize the conflict.

The new edition of *The Algebra of Conscience* is significantly expanded. The second part of the book, devoted to moral choice, is completely new. Based on the theory presented in the first part, it constructs the model of a subject capable of making an intentional choice. A special variable corresponds to the subject's intention. This development allows us to include within the model freedom of will and freedom of choice, and also to generalize classical 2×2 game theory to the case where outcomes, in addition to having utility measures, are either 'positive' or 'negative.'

In its concluding chapters the book constructs a dynamic model of the intentional subject faced with a choice between two alternatives, neither of which is morally acceptable for the subject. It is shown that in this case the probabilities of choice of the alternatives may change chaotically. From this it follows that one cannot predict which alternative will be chosen or even the probabilities with which they will be chosen.

Audience: The book is addressed to a broad readership having elementary knowledge of mathematical logic and the theory of probability. It can be used in college courses studying the modelling of moral choice. The book's material can also be used in the design of artificial intelligence systems.

From reader reviews:

Luba Jacobs:

Do you have favorite book? When you have, what is your favorite's book? Book is very important thing for us to understand everything in the world. Each guide has different aim or maybe goal; it means that guide has different type. Some people really feel enjoy to spend their time and energy to read a book. They can be reading whatever they have because their hobby is reading a book. What about the person who don't like reading through a book? Sometime, man or woman feel need book when they found difficult problem or maybe exercise. Well, probably you will need this Algebra of Conscience (Theory and Decision Library A:).

Eric Lowe:

The book Algebra of Conscience (Theory and Decision Library A:) can give more knowledge and also the precise product information about everything you want. So why must we leave a very important thing like a book Algebra of Conscience (Theory and Decision Library A:)? A few of you have a different opinion about book. But one aim which book can give many information for us. It is absolutely suitable. Right now, try to closer with your book. Knowledge or details that you take for that, you are able to give for each other; you could share all of these. Book Algebra of Conscience (Theory and Decision Library A:) has simple shape however, you know: it has great and big function for you. You can appear the enormous world by start and read a publication. So it is very wonderful.

Paul Tirrell:

The e-book with title Algebra of Conscience (Theory and Decision Library A:) includes a lot of information that you can understand it. You can get a lot of benefit after read this book. This kind of book exist new expertise the information that exist in this publication represented the condition of the world currently. That is important to you to learn how the improvement of the world. This specific book will bring you throughout new era of the global growth. You can read the e-book on your own smart phone, so you can read the item anywhere you want.

Bryan Perry:

With this era which is the greater particular person or who has ability to do something more are more special than other. Do you want to become one among it? It is just simple solution to have that. What you need to do is just spending your time not very much but quite enough to have a look at some books. On the list of books in the top record in your reading list is definitely Algebra of Conscience (Theory and Decision Library A:). This book that is qualified as The Hungry Inclines can get you closer in becoming precious person. By looking way up and review this e-book you can get many advantages.
