## **Explorations in Theology I: 1 Hans Urs von Balthasar**

The first of four volumes of von Balthasar's many essays and conferences. Each focuses on a specific aspect of theology or spirituality and presents it with all the richness which comes from his immense erudition, but in a style that is directed and intelligible since few of these essays were intended for scholarly audiences.

These volumes present a rare opportunity to experience Balthasar's synthetic and comprehensive treatment of major themes in theology without having to make one's way through much more extensive works which cover a much wider scope.

These volumes will provide an excellent introduction to the thought of von Balthasar for those unfamiliar with him, and their chapters will focus on specific themes treated throughout his works for those who are familiar with him. An excellent overview of the writings and thought of one of the outstanding theologians of this century.
