This paper describes the role of national saving in the world economy. It deals with issues that are related primarily to national saving in industrial countries. The paper describes trends in national saving rates of industrial countries and briefly discusses the prospects over the medium term. The discussion confirms that there have been marked differences among industrial countries in terms of the proportion of national income that is saved. The paper also examines the determinants of saving in industrial countries.

**Timothy Austin:**

As a university student exactly feel bored for you to reading. If their teacher requested them to go to the library or to make summary for some book, they are complained. Just very little students that has reading's internal or real their passion. They just do what the professor want, like asked to go to the library. They go to at this time there but nothing reading very seriously. Any students feel that reading is not important, boring as well as can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this The Role of National Saving in the World Economy: Recent Trends and Prospects: Role of National Saving in the World Economy No. 6 (Occasional Paper (Intl Monetary Fund)) can make you feel more interested to read.
