## Nothing Greater, Nothing Better: Theological Essays on the Love of God

The love of God is arguably the most central doctrine of the Christian faith, and yet, remarkably, the subject of God's love has not received the attention it deserves. This new work by an international team of theologians and biblical scholars fills this need, offering a clear, complete, and inspiring discussion on the nature of God's love and its meaning for the Christian life. After surveying the ways in which the love of God has been understood through the ages, the book constructs an understanding of God's love particularly relevant for today. Though exploring the subject from many angles 'biblical theology, historical theology, philosophical theology, and systematic theology' these chapters are united in seeing Jesus, who was at once human and divine, as the ultimate criterion for defining the love of God.
