Ten action-packed adventures of the legendary goddess as she uses her bow to battle Nazi tanks, gat-toting mobsters - and more. Diana the Huntress appeared as a back-up feature in Yellowjacket Comics, which ran ten issues in the mid-1940s. This graphic novel edition reprints all these adventures of Diana, the Greek goddess sent to Earth to help out mortals in time of need. Several online comic book sites share this description of the series: Diana the Huntress "...travels from her home on Mount Olympus under orders from her father Zeus to protect Greece from the Nazis. She could be summoned by anyone who found one of her arrows. Her powers included flight, superhuman strength and agility. Diana also had a "robe of concealment" allowing her to hide among mortals. She was a skilled archer and carries a magical bow and golden arrows. She was assisted by her fellow Greek/Roman deities such as Apollo, Hercules, Zeus, Mercury and Discordia. Her enemies included Count Vesta." But this is majorly wrong, as the war ends in mid-series and Diana fights criminal gangs, sorcery, and even the Titans before returning to Olympus as the series ended. Here again from the Golden Age of the comic books, with an informative introduction by classics scholar and comics fan, Wade Heaton, are all ten of Diana the Huntress' timeless exploits.
