This volume collects papers about the laws of geometric Brownian motions and their time-integrals, written by the author and coauthors between 1988 and 1998. Throughout the volume, connections with more recent studies involving exponential functionals of Lévy processes are indicated. Some papers originally published in French are made available in English for the first time.

From reader reviews:

Natalie Hernandez:

Typically the book Exponential Functionals of Brownian Motion and Related Processes (Springer Finance / Springer Finance Lecture Notes) will bring someone to the new experience of reading some sort of book. The author style to elucidate the idea is very unique. When you try to find new book to study, this book very suited to you. The book Exponential Functionals of Brownian Motion and Related Processes (Springer Finance / Springer Finance Lecture Notes) is much recommended to you you just read. You can also get the e-book in the official web site, so you can easier to read the book.

Shiela Steen:

Reading can called brain hangout, why? Because when you are reading a book especially book entitled Exponential Functionals of Brownian Motion and Related Processes (Springer Finance / Springer Finance Lecture Notes) your mind will drift away trough every dimension, wandering in most aspect that maybe not known for but surely can become your mind friends. Imaging just about every word written in a book then become one application form conclusion and explanation that maybe you never get ahead of. The Exponential Functionals of Brownian Motion and Related Processes (Springer Finance / Springer Finance Lecture Notes) giving you one more experience more than blown away your mind but also giving you useful info for your better life on this era. So now let us demonstrate the relaxing pattern is your body and mind is going to be pleased when you are finished looking at it, like winning a sport. Do you want to try this extraordinary paying spare time activity?

Kerry Diaz:

Do you have something that you enjoy such as book? The guide lovers usually prefer to choose book like comic, short story and the biggest an example may be novel. Now, why not hoping Exponential Functionals of Brownian Motion and Related Processes (Springer Finance / Springer Finance Lecture Notes) that give your pleasure preference will be satisfied simply by reading this book. Reading addiction all over the world can be said as the way for people to know world a great deal better then how they react when it comes to the world. It can't be claimed constantly that reading behavior only for the geeky man but for all of you who wants to become success person.
