Western Civilization, 5/e, is distinguished for its wider definition of Europe that includes Eastern Europe, Scandinavia, and European frontiers. Recognizing that factors outside the continent affected European history, the authors highlight Europe's place in the world throughout the narrative and in the primary source feature, "The Global Record. "Carefully revised and edited for greater accessibility, the Fifth Edition incorporates new pedagogical features such as focus questions, key terms, and section summaries to better support students of western civilization. The reconceived narrative and streamlined organization, featuring smaller, more cohesive learning units, lend to greater ease of use for both students and instructors.
