Anatomy of the Niger Delta Crisis: Causes, Consequences and Opportunities for Peace (African Politics / Politiques Africaines)

Anatomy of the Niger Delta Crisis: Causes, Consequences and Opportunities for Peace (African Politics / Politiques Africaines)

Anatomy of the Niger Delta crisis: causes, consequences and opportunities for peace is a firm key work providing deep insights into the complex and varied interests that are at play in the Niger Delta of Africa's most populous nation, Nigeria. The nine treatises in this book, unequivocally, identify the primary motivations and major players in the imbroglio that is responsible for the quagmire which the international oil market is faced with today. The bold academic discourses, to a large extent, blame British imperialism, global capitalism and Nigeria's political elites for the situation in the Niger Delta, which has a far reaching global effect. Each of the essays, nonetheless, paints a picture of hope for the distraught communities in the Niger Delta in spite of the dark themes that are the preoccupations of the scholars. That is, if the Nigerian government would approach the Niger Delta crisis with the absolute sincerity that it deserves.
