God, Mind and Knowledge (The British Society for the Philosophy of Religion Series)

Andrew Moore

God, Mind and Knowledge (The British Society for the Philosophy of Religion Series) Andrew Moore

The themes of God, Mind and Knowledge are central to the philosophy of religion but they are now being taken up by professional philosophers who have not previously contributed to the field. This book is a collection of original essays by eminent and rising philosophers and it explores the boundaries between philosophy of religion, philosophy of mind, metaphysics, and epistemology. Its introduction will make it accessible to newcomers to the field, especially those approaching it from theology. Many of the book's topics lie at the focal point of debates - instigated in part by the so-called New Atheists - in contemporary culture about whether it is rational to have religious beliefs, and the role these beliefs can or should play in the life of individuals and of society.
