Handbook of Moral and Character Education (Educational Psychology Handbook)

Handbook of Moral and Character Education (Educational Psychology Handbook)

There is widespread agreement that schools should contribute to the moral development and character formation of their students. In fact, 80% of US states currently have mandates regarding character education. However, the pervasiveness of the support for moral and character education masks a high degree of controversy surrounding its meaning and methods. The purpose of this handbook is to supplant the prevalent ideological rhetoric of the field with a comprehensive, research-oriented volume that both describes the extensive changes that have occurred over the last fifteen years and points forward to the future. Now in its second edition, this book includes the latest applications of developmental and cognitive psychology to moral and character education from preschool to college settings, and much more.
