Michael J. Fagel

## Crisis Management and Emergency Planning: Preparing for Today's Challenges Michael J. Fagel

Emergency managers and officials have seen a tremendous increase in the planning responsibilities placed on their shoulders over the last decade. **Crisis Management and Emergency Planning: Preparing for Today's Challenges** supplies time-tested insights to help communities and organizations become better prepared to cope with natural and manmade disasters and their impacts on the areas they serve.

Author and editor Michael J. Fagel, PhD, CEM has more than three decades of experience in emergency management and emergency operations. He has been an on-site responder to such disaster events as the Oklahoma City Bombing and the site of the World Trade Center in the aftermath of 9/11. He is an experienced professor, trainer, professional, and consultant and has pretty much seen it all.

The book delves into this experience to present advanced emergency management and response concepts to disasters not often covered in other publications. It includes coverage of planning and preparedness, public health considerations, vulnerability and impact assessments, hospital management and planning, sporting venue emergency planning, and community preparedness including volunteer management.

Contributions from leading professionals in the field focus on broad responses across the spectrum of public health, emergency management, and mass casualty situations. The book provides detailed, must-read planning and response instruction on a variety of events, identifying long-term solutions for situations where a community or organization must operate outside its normal daily operational windows.

This book has been selected as the *2014 ASIS Book of the Year*.
