Longitudinal Data Analysis (Chapman & Hall/CRC Handbooks of Modern Statistical Methods)

Longitudinal Data Analysis (Chapman & Hall/CRC Handbooks of Modern Statistical Methods)

Although many books currently available describe statistical models and methods for analyzing longitudinal data, they do not highlight connections between various research threads in the statistical literature.

Responding to this void, **Longitudinal Data Analysis** provides a clear, comprehensive, and unified overview of state-of-the-art theory and applications. It also focuses on the assorted challenges that arise in analyzing longitudinal data.

After discussing historical aspects, leading researchers explore four broad themes: parametric modeling, nonparametric and semiparametric methods, joint models, and incomplete data. Each of these sections begins with an introductory chapter that provides useful background material and a broad outline to set the stage for subsequent chapters. Rather than focus on a narrowly defined topic, chapters integrate important research discussions from the statistical literature. They seamlessly blend theory with applications and include examples and case studies from various disciplines.

Destined to become a landmark publication in the field, this carefully edited collection emphasizes statistical models and methods likely to endure in the future. Whether involved in the development of statistical methodology or the analysis of longitudinal data, readers will gain new perspectives on the field.

From reader reviews:

Stanley Wells:

The book Longitudinal Data Analysis (Chapman & Hall/CRC Handbooks of Modern Statistical Methods) gives you the sense of being enjoy for your spare time. You may use to make your capable more increase. Book can to get your best friend when you getting stress or having big problem with the subject. If you can make reading through a book Longitudinal Data Analysis (Chapman & Hall/CRC Handbooks of Modern Statistical Methods) to be your habit, you can get more advantages, like add your personal capable, increase your knowledge about some or all subjects. You can know everything if you like open up and read a publication Longitudinal Data Analysis (Chapman & Hall/CRC Handbooks of Modern Statistical Methods). Kinds of book are several. It means that, science e-book or encyclopedia or other folks. So , how do you think about this reserve?

Gloria Eller:

Do you like reading a book? Confuse to looking for your favorite book? Or your book was rare? Why so many query for the book? But virtually any people feel that they enjoy regarding reading. Some people likes studying, not only science book but additionally novel and Longitudinal Data Analysis (Chapman & Hall/CRC Handbooks of Modern Statistical Methods) or others sources were given understanding for you. After you know how the truly amazing a book, you feel need to read more and more. Science publication was created for teacher as well as students especially. Those publications are helping them to put their knowledge. In different case, beside science book, any other book likes Longitudinal Data Analysis (Chapman & Hall/CRC Handbooks of Modern Statistical Methods) to make your spare time considerably more colorful. Many types of book like this.

David Dabbs:

Book is one of source of information. We can add our information from it. Not only for students but in addition native or citizen require book to know the change information of year to year. As we know those ebooks have many advantages. Beside most of us add our knowledge, could also bring us to around the world. By the book Longitudinal Data Analysis (Chapman & Hall/CRC Handbooks of Modern Statistical Methods) we can take more advantage. Don't you to be creative people? To be creative person must like to read a book. Merely choose the best book that suitable with your aim. Don't be doubt to change your life at this time book Longitudinal Data Analysis (Chapman & Hall/CRC Handbooks of Modern Statistical Methods). You can more attractive than now.

Carolyn Cook:

Reading a book make you to get more knowledge from it. You can take knowledge and information coming from a book. Book is written or printed or illustrated from each source this filled update of news. In this modern era like today, many ways to get information are available for anyone. From media social just like

newspaper, magazines, science publication, encyclopedia, reference book, book and comic. You can add your understanding by that book. Are you ready to spend your spare time to spread out your book? Or just in search of the Longitudinal Data Analysis (Chapman & Hall/CRC Handbooks of Modern Statistical Methods) when you desired it?
