## Interreligious Studies: A Relational Approach to Religious Activism and the Study of Religion

Oddbjørn Leirvik

The notion of Interreligious Studies signals a new academic perspective on the study of religion, characterized by a relational approach. *Interreligious Studies* defines the essential features of interreligious studies compared with alternative conceptions of religious studies and theology. The book discusses pressing and salient challenges in interreligious relations, including interreligious dialogue in practice and theory, interfaith dialogue and secularity, confrontational identity politics, faith-based diplomacy, the question of interfaith learning in school, and interreligious responses to extremism.

*Interreligious Studies* is a cutting-edge study from one of the most important voices in Europe in the field, Oddbjørn Leirvik, and includes case study material from his native Norway including interreligious responses to the bomb attack in Norway on 22nd July 2011, as well as examples from a number of other national and global contexts

Expanding discussions on interreligious dialogue and the relationship between religions in new and interesting ways, this book is a much-needed addition to the growing literature on interreligious studies.
