Rural Labour Relations in India (Library of Peasant Studies)

Rural Labour Relations in India (Library of Peasant Studies)

This volume is about the emerging development trajectories of rural labour relations in India, based on studies from its regions and states. Its overarching theme is the rural class conflict and the results of such conflict, and the link between this and the nature and impact of state intervention. Vigorous emancipatory processes are identified, and the limitations of and contradictions inherent in such processes are examined. Both powerful general trends and significant regional variations are distinguished.
