Telecommunications Network Design and Management (Operations Research/Computer Science Interfaces Series)

Telecommunications Network Design and Management (Operations Research/Computer Science Interfaces Series)

Telecommunications Network Design And Management represents the state-of-the-art of applying operations research techniques and solutions across a broad spectrum of telecommunications problems and implementation issues.

- The first three chapters of the book deal with the design of wireless networks, including UMTS and Ad-Hoc networks.
- Chapters 4-6 deal with the optimal design of telecommunications networks. Techniques used for network design range from genetic algorithms to combinatorial optimization heuristics.
- Chapters 7-10 analyze traffic flow in telecommunications networks, focusing on optimizing traffic load distribution and the scheduling of switches under multi-media streams and heavy traffic.
- Chapters 11-14 deal with telecommunications network management, examining bandwidth provisioning, admission control, queue management, dynamic routing, and feedback regulation in order to ensure that the network performance is optimized.
- Chapters 15-16 deal with the construction of topologies and allocation of bandwidth to ensure quality-of-service.

From reader reviews:

Jimmy Hicks:

Why don't make it to become your habit? Right now, try to prepare your time to do the important action, like looking for your favorite book and reading a book. Beside you can solve your trouble; you can add your knowledge by the book entitled Telecommunications Network Design and Management (Operations Research/Computer Science Interfaces Series). Try to stumble through book Telecommunications Network Design and Management (Operations Research/Computer Science Interfaces Series) as your good friend. It means that it can being your friend when you experience alone and beside associated with course make you smarter than before. Yeah, it is very fortuned to suit your needs. The book makes you far more confidence because you can know almost everything by the book. So , we should make new experience and also knowledge with this book.

Richard Riggins:

The book Telecommunications Network Design and Management (Operations Research/Computer Science Interfaces Series) make one feel enjoy for your spare time. You can utilize to make your capable far more increase. Book can being your best friend when you getting strain or having big problem with your subject. If you can make reading a book Telecommunications Network Design and Management (Operations Research/Computer Science Interfaces Series) to be your habit, you can get considerably more advantages, like add your current capable, increase your knowledge about a number of or all subjects. You could know everything if you like start and read a book Telecommunications Network Design and Management (Operations Research/Computer Science Interfaces Series). Kinds of book are a lot of. It means that, science e-book or encyclopedia or other individuals. So , how do you think about this guide?

John Dinwiddie:

You may spend your free time to see this book this e-book. This Telecommunications Network Design and Management (Operations Research/Computer Science Interfaces Series) is simple to develop you can read it in the recreation area, in the beach, train and also soon. If you did not have got much space to bring often the printed book, you can buy often the e-book. It is make you better to read it. You can save the actual book in your smart phone. So there are a lot of benefits that you will get when one buys this book.

Lynette Petree:

What is your hobby? Have you heard this question when you got students? We believe that that problem was given by teacher to the students. Many kinds of hobby, Every individual has different hobby. And you also know that little person such as reading or as looking at become their hobby. You should know that reading is very important as well as book as to be the thing. Book is important thing to include you knowledge, except your personal teacher or lecturer. You see good news or update regarding something by book. Different categories of books that can you decide to try be your object. One of them is actually Telecommunications
