## Anti-Spam Techniques Based on Artificial Immune System Ying Tan

Email has become an indispensable communication tool in daily life. However, high volumes of spam waste resources, interfere with productivity, and present severe threats to computer system security and personal privacy. This book introduces research on anti-spam techniques based on the artificial immune system (AIS) to identify and filter spam. It provides a single source of all anti-spam models and algorithms based on the AIS that have been proposed by the author for the past decade in various journals and conferences.

Inspired by the biological immune system, the AIS is an adaptive system based on theoretical immunology and observed immune functions, principles, and models for problem solving. Among the variety of anti-spam techniques, the AIS has been highly effective and is becoming one of the most important methods to filter spam. The book also focuses on several key topics related to the AIS, including:

- Extraction methods inspired by various immune principles
- Construction approaches based on several concentration methods and models
- Classifiers based on immune danger theory
- The immune-based dynamic updating algorithm
- Implementing AIS-based spam filtering systems

The book also includes several experiments and comparisons with state-of-the-art anti-spam techniques to illustrate the excellent performance AIS-based anti-spam techniques.

Anti-Spam Techniques Based on Artificial Immune System gives practitioners, researchers, and academics a centralized source of detailed information on efficient models and algorithms of AIS-based anti-spam techniques. It also contains the most current information on the general achievements of anti-spam research and approaches, outlining strategies for designing and applying spam-filtering models.

### **From reader reviews:**

#### **Larry Parker:**

In this 21st millennium, people become competitive in every way. By being competitive currently, people have to do something to make themselves survive, being in the middle of often the crowded place and notice through surrounding. One thing that sometimes many people have underestimated the item for a while is reading. Yeah, by reading a book your ability to survive raises then having chance to endure than other is high. To suit your needs who want to start reading any book, we give you that Anti-Spam Techniques Based on Artificial Immune System book as nice and daily reading guide. Why, because this book is usually more than just a book.

#### **Mary Kidd:**

Here thing why this particular Anti-Spam Techniques Based on Artificial Immune System are different and reputable to be yours. First of all looking at a book is good but it depends in the content of the usb ports which is the content is as delightful as food or not. Anti-Spam Techniques Based on Artificial Immune System giving you information deeper and in different ways, you can find any publication out there but there is no book that similar with Anti-Spam Techniques Based on Artificial Immune System. It gives you thrill reading through journey, its open up your own eyes about the thing that will happened in the world which is perhaps can be happened around you. It is possible to bring everywhere like in area, café, or even in your method home by train. In case you are having difficulties in bringing the printed book maybe the form of Anti-Spam Techniques Based on Artificial Immune System in e-book can be your alternative.

#### **Alan Sarno:**

As a pupil exactly feel bored to be able to reading. If their teacher inquired them to go to the library or even make summary for some e-book, they are complained. Just tiny students that has reading's spirit or real their passion. They just do what the educator want, like asked to go to the library. They go to at this time there but nothing reading very seriously. Any students feel that examining is not important, boring along with can't see colorful images on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this era, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Anti-Spam Techniques Based on Artificial Immune System can make you sense more interested to read.

#### **William Black:**

A number of people said that they feel fed up when they reading a guide. They are directly felt the item when they get a half regions of the book. You can choose the actual book Anti-Spam Techniques Based on Artificial Immune System to make your own personal reading is interesting. Your current skill of reading proficiency is developing when you such as reading. Try to choose very simple book to make you enjoy to read it and mingle the feeling about book and looking at especially. It is to be initial opinion for you to like to available a book and go through it. Beside that the publication Anti-Spam Techniques Based on Artificial

Immune System can to be a newly purchased friend when you're sense alone and confuse in doing what must you're doing of the time.
