## Governing Uncertainty: Environmental Regulation in the Age of Nanotechnology

Nanotechnology promises to transform the materials of everyday life, leading to smaller and more powerful computers, more durable plastics and fabrics, cheap and effective water purification systems, more efficient solar panels and storage batteries, and medical devices capable of tracking down and killing cancer cells or treating neurological diseases. Policy analysts predict a radical change in the industrial sector; at present, the U.S. government spends nearly \$2 billion annually on nanotechnology research and development. Yet the nanotechnology revolution is not straightforward. Enthusiasm about nanotechnology's future is tempered by recognition of the hurdles to its responsible development, including the capacity of government to support technological innovation and economic growth while also addressing potential environmental and public health impacts.

This is the first volume to engage scholarly perspectives on environmental regulation in light of the challenges posed by nanotechnology. Contributors focus on the overarching lessons of decades of regulatory response, while posing a fundamental question: How can government regulatory systems satisfy the desire for scientific innovation while also taking into account the direct and indirect effects of 21st century emerging technologies, particularly in the face of scientific uncertainties? With perspectives from economics, history, philosophy, and public policy, this new resource illuminates the various challenges inherent in the development of nanotechnology and works towards a reconceptualization of government regulatory approaches.

### **From reader reviews:**

#### **Michael Decker:**

Information is provisions for people to get better life, information nowadays can get by anyone with everywhere. The information can be a knowledge or any news even a problem. What people must be consider while those information which is from the former life are hard to be find than now is taking seriously which one is acceptable to believe or which one the resource are convinced. If you find the unstable resource then you understand it as your main information you will have huge disadvantage for you. All those possibilities will not happen throughout you if you take Governing Uncertainty: Environmental Regulation in the Age of Nanotechnology as your daily resource information.

#### **Kristin Walker:**

This book untitled Governing Uncertainty: Environmental Regulation in the Age of Nanotechnology to be one of several books which best seller in this year, this is because when you read this guide you can get a lot of benefit into it. You will easily to buy this book in the book retail outlet or you can order it via online. The publisher of the book sells the e-book too. It makes you easier to read this book, because you can read this book in your Cell phone. So there is no reason to you to past this publication from your list.

#### **Jack Johnson:**

What is your hobby? Have you heard in which question when you got scholars? We believe that that concern was given by teacher for their students. Many kinds of hobby, Every person has different hobby. Therefore you know that little person like reading or as looking at become their hobby. You have to know that reading is very important in addition to book as to be the point. Book is important thing to include you knowledge, except your teacher or lecturer. You see good news or update about something by book. Amount types of books that can you go onto be your object. One of them is this Governing Uncertainty: Environmental Regulation in the Age of Nanotechnology.

#### **Opal Moffett:**

Many people said that they feel uninterested when they reading a reserve. They are directly felt that when they get a half parts of the book. You can choose the actual book Governing Uncertainty: Environmental Regulation in the Age of Nanotechnology to make your reading is interesting. Your current skill of reading ability is developing when you just like reading. Try to choose straightforward book to make you enjoy to learn it and mingle the sensation about book and looking at especially. It is to be 1st opinion for you to like to open up a book and go through it. Beside that the book Governing Uncertainty: Environmental Regulation in the Age of Nanotechnology can to be your friend when you're feel alone and confuse using what must you're doing of the time.
