SAGE Biographical Research (SAGE Library of Research Methods)

SAGE Biographical Research (SAGE Library of Research Methods)

Biographical research may take a range of forms and may vary in its application and approach but has the unified and coherent aim to give 'voice' to individuals. The central concern of this collection is to assemble articles (from sociology, social psychology, education, health, criminology, social gerontology, epidemiology, management and organizational research) that illustrate the full range of debates, methods and techniques that can be combined under the heading 'biographical research'.

Volume One: Biographical Research: Starting Points, Debates and Approaches explores the different biographical methods currently used while locating these within the history of social science methods.

Volume Two: Biographical Interviews, Oral Histories and Life Narratives focuses on the more established, interview-based, biographical research methods and considers the analytical strategies used for interview-based biographical research

Volume Three: Forms of Life Writing: Letters, Diaries and Auto/Biography considers the value of 'data' contained within letters, diaries and auto/biography and illustrates how this data has been analyzed to reveal biographies and their social context.

Volume Four: Other Documents of Life: Photographs, Cyber Documents and Ephemera focuses on the 'other' human documents and objects, like photographs, cyber-documents (emails, blogs, social networking sites, webpages) and other ephemera (such as official documents) that are used extensively in biographical research.
